

## WORKING IN DOWNTOWN SPOKANE: THE ADVANTAGES

The Spokane region serves as the business, transportation, medical, industrial and cultural hub of the Inland Northwest, an area that contains a population of more than 1.4 million people. The city of Spokane is located on the east side of Washington state, just 18 miles west of the Idaho state line and 100 miles south of the Canadian border, providing the community with numerous recreational opportunities.

The local economy relies on the region's continued investments in human capital and infrastructure to create an environment for success. Spokane's award-winning K-12 schools and world-class colleges and universities reflect the region's solid commitment to education. Significant transportation and communication assets position the region for sustained growth and development.

DCI Engineers has contributed a great amount of its design services to the development of the Inland Northwest. The downtown Spokane location provides easy access to various locations and projects. These projects are not only some of DCI's best work, but they are also some of the region's greatest development endeavors:

- Gonzaga University McCarthy Center Arena – Spokane, Washington
- Schweitzer Mountain Trapper's Creek Development – Sandpoint, Idaho
- Kennewick Convention Center – Kennewick, Washington
- Parkside Tower – Coeur d'Alene, Idaho
- Schweitzer Engineering Laboratories – Pullman, Washington
- Centerplace at Mirabeau Point – Spokane Valley, Washington
- Downtown Toyota Remodel & Parking Structure – Spokane, Washington
